SEER

ENERGY-SAVING EFFICIENCY

When properly matched and installed, your <Brand> brand GSC13 Air Conditioner offers up to 13 SEER energy efficient performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency – and the lower the operating cost. In many applications, the efficiency of your <Brand> brand GSC13 Air Conditioner can be enhanced by using it in conjunction with an <Brand> brand Gas Furnace that includes a variable-speed blower motor. Talk to your <Brand> dealer about opportunities to optimize the efficiency of your new unit.

ENERGY EFFICIENT AIR CONDITIONERS

DURABLE CONSTRUCTION

We take pride in our manufacturing processes and build each unit carefully. We rely on strict quality-driven processes to build well-designed, top-quality and thoroughly-tested products. We leak-test every air conditioner three separate times during the manufacturing process, and we run-test each unit before shipment. This quality focus ensures a trouble-free installation and a long product life.
